COLUMBIA UNIVERSITY

PRE-COLLEGE PROGRAMS

Columbia University invites the world's top high school students to deepen their academic and college preparation through our academic enrichment programs this summer.

WHY COLUMBIA?

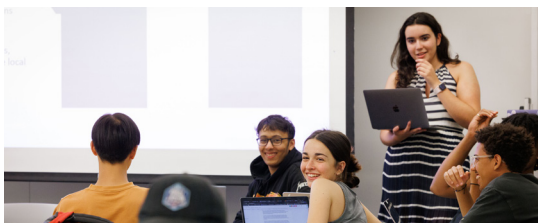

College Preparedness

Attend seminars, workshops, and lectures to prepare for the college application process and the academic rigors of university life.

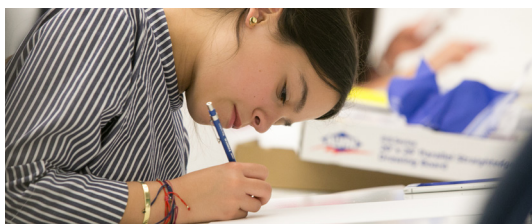

Rigorous Coursework

Courses in subjects not typically offered at high schools span a dozen subject areas, ranging from neuroscience to understanding blockchain.

Learn from World-Class Experts and Researchers

Instructors encourage students to think independently, critically, and creatively about complex and challenging material.

Differentiate Yourself

Earn a Columbia Certification of Participation and receive an individualized letter of evaluation describing your participation and progress in your course.

Global Community of Scholars

Meet and engage with fellow students and teachers from New York City, across the United States, and around the world.

Engaging Activities

Enhance your educational experience by participating in workshops, events, clubs, and activities designed to get you involved and exploring your interests.
